

SIZING GUIDE

Please see the guide below for appropriate size for your child.

From a mother's perspective, most items are true to size.

Rompers may be more generous in their sizing and are designed to be full "foofy" bloomers at the bottom. Straps may be longer on some children. Press studs are provided to ensure length can be adjusted. Some customers have simply twisted the straps before fastening, therefore shortening the straps until their child grows into them. I find this is a smart way to ensure your child gets extra wear out of their outfit!
